Liberty High School scored a touchdown with eight seconds left in the game to beat the Appomattox Raiders 14-7 last Friday night in a non-district football game played at Appomattox. The lost was the first of the season for Appomattox and made them 2-1 overall and they are still 1-0 in the district. The win made Liberty 2-1 overall also.

The Raiders seem to have everything in control in the first quarter as they moved the ball at will only to have the drive stall on the Liberty seven yard line. Liberty then took over at the last of the first quarter and kept the ball all of the second quarter except the last 52 seconds. They ran the 93 yards in 22 plays with the aid of a 15 yard penalty for the score with 52 seconds left in the half as Jeff Mills scored from five yards out and Mike Burnette kicked the extra points for a 7-0 lead. The Raiders then received the kick and passed two plays as the clock ran out ending the half.

In the third quarter the Raiders got their only score as Phillip Goode recovered a fumble and got it to the Liberty 27 yard line. A 15 yard penalty moved the ball to the 12, a three yard run by Goode and then Glenn Doss went in from nine yards out for the score and Goode kicked the extra point to tie the game at 7-7 with 5:42 left in the third quarter. The fumble was caused on a jarring tackle by Mike Gallier that enabled Goode to recover the ball.

The Raiders got the ball back later in the fourth quarter and appeared to be driving for another score but lost the ball on downs on the Liberty 18. Liberty took over with about three and half minutes to go and drove for the score as quarterback Bill Carson swept the end, from four yards out with eight seconds left on the clock. Burnette kicked the point after and it was 14-7. The Raiders then got off one play, a pass, that was fumbled and Liberty recovered as the game ended.

Goode was the big offensive weapon for the Raiders as he gained 86 yards in 12 carries. Doss was next with 42 yards in eight attempts.

The defense was led by Mike Gallier, with 11 tackles, Billy Guthrie with eight, Goode with seven and a fumble recovery and Warren Coleman with six. Nathan Snell had a fumble recovery for the Raiders also.

Jeff Mills led Liberty in rushing with 135-on 19 carries. Ron Dickerson was the leader on defense.

The Raiders travel to Gretna for a game Friday night.

Players Of The Week

Mike Gallier, on the left, and Phillip Goode, on the right, have been named players of the week for their performances in the Friday night game played here when the Raiders were defeated by Liberty High School 14 to 7. Both players will receive a dinner compliments of Maude's Restaurant.

Gallier was named player of the week for his fine defensive work against the Minute Men of Liberty High School. He made 11 unassisted tackles and is a second year defensive half-back. Gallier also plays offensive wing back.

Goode was picked by the coaching staff as outstanding player for the most powerful running against Liberty. This is the first year Goode has played as full back. He was named player for the most powerful running against Liberty. This is the first year Goode has played as full back. He is a senior and co-captain of the Raider team.

ASCS Makes Maintenance Checks

Set-aside acreage maintenance checks, now being made on Appomattox County farms, will continue through the end of the year.

"Random samples of the farms participating in the 1972 set-aside program for wheat and feed grain will be visited before we finish," J. F. Alvis, Jr., Chairman of the County Agricultural Stabilization and Conservation(ASC) Committee, said. "Designated set-aside land will be visually checked to determine if it is being maintained in accordance with program provisions."

He explained that producers who have set-aside acreage are required to take care of it by maintaining cover, controlling weeds, bushes and rodents, and guarding against erosion. Set-aside land may not be grazed until after October 1, and no crop may be harvested on that land during the year.

"Random selections are made to determine which farms will be visited," Mr. Alvis said. "These selections are made by following a system provided by the State ASCS office. Some farms already visited for a random, or required check, may be visited again under the system."

Maintenance checks are made to assure that program payments are earned and result in benefits to farmers and the general public.

WILL ATTEND DISTRICT MEETING OCTOBER 3rd

Richard T. Nash of Appomattox will represent Southern States Cooperative members in the Appomattox area at the cooperative's district election meeting to be held October 3 at the Ramada Inn in Lynchburg.

Ronald Coleman and Dan G. Coleman of Coleman and Sons, managers of the local Southern States retail outlet in the above area, will also attend.

The session will elect a member of the cooperative to serve on its Board of Directors for the next three years. The member elected will be confirmed at the cooperative's 49th annual Stockholders Meeting in Richmond, on November 14 and 15. The group will also select a nominating committee for the 1973 election meeting.

The program for the Lynchburg meeting will include a talk by R. W. Bryan, the cooperative's director of member and institutional relations, who will discuss "The Anatomy of a Cooperative."

R. R. Feagons, Southern States regional manager of Roanoke, will be in charge of arrangements for the meeting.

All liquid supplements aren't created equal.

Compensator proves it. Even if other supplements guarantee the same analysis, Compensator can still outperform them.

Its patented ammonium polyphosphate COMPEN®, outperformed even more costly sources of phosphorus. (You can't judge on price alone.) Its greater sequestering ability increases mineral availability and maintains the highest vitamin stability. Sulfur is added to give Compensator the right nitrogen-sulfur ratio. Its pH is nearly neutral to match the rumen pH. (Which also prevents equipment corrosion.) And Compensator is made in such a way that consumption control is built-in, and nutrients are released to provide maximum utilization.

It's no accident Compensator is a better liquid feed. Allied Chemical designs it that way. And your own cattle will prove it.
